COLORADO BOYS STATE

www.CoLegionBoysState.org

Attention High School Counselors,

High school juniors are invited to apply for the 2027 American Legion Colorado Boys State program. **Please help us by placing the enclosed poster on your bulletin board and sharing the brochures with junior boys at your high school. Digital copies of these enclosures may be found at: https://colegionboysstate.org/school-counselors/**

At The American Legion Colorado Boys State these young men will experience American self-government as they create and operate their own cities, counties and state governments. In a complete "Hands On" environment, the boys will interact with their peers from all across Colorado to share concerns, ideas and come to agreements on what and how to operate their state as they develop and demonstrate their leadership skills.

American Legion Colorado Boys State is an authentic true to life civics experience operated and managed entirely by the boys themselves. They will elect their own Governor, Mayors, state legislators and US Senators and actually deal with situations at all levels of government.

- Participating boys can **apply for college scholarships**.
- This fun and educational program is conducted at Northeastern Junior College in Sterling, Colorado from June 6 - 12, 2027.
- On-line Applications are now being accepted thru May 1, 2027 on the above website.

We would sincerely appreciate you sharing this information with teachers of junior students at your school! Additional information about American Legion Colorado Boys State can be found on our website.

Thank you,

Norm Steen
Director
